Judge Medina To Address Class Of '51 At Graduation

More than 1,000 seniors and graduate students will receive degrees at the Institute's graduation exercises on Friday, June 8. According to Mr. Donald P. Severance, chairman of the commencement committee, who announced last night the complete schedule of the 85th annual commencement activities.

The Reverend Sidney Lovett, Chaplain of Yale University, will speak at Baccalaureate Services on Thursday afternoon, June 7, in Walker Memorial.

Graduation exercises will be followed Friday noon by a commencement luncheon in Great Court, for all graduates and their guests. The buffet luncheon, at \$1.50 per person, will be served in Du Pont Court.

The Baccalaureate Service, which begins at 3:00 p.m., will be conducted by the Reverend Dana McLean Greeley of the Arlington Street Church, Boston. The traditional senior class picture will be made on the lawn of the Great Court immediately preceding these services.

Graduation exercises in Rockwell Cage will begin at 10:30 a.m. on Friday, June 8. The principal speaker will be Judge Harold R. Medina of the United States District Court, Southern District of New York, and the Reverend Dwight C. Smith of the Mount Vernon Church, Boston, will give the invocation.

Chief marshal for the commence-

(Continued on Page 3)

The Senior Week Committee has announced that dates of any member of the class of '51 may be housed in Riverside House as from Friday evening, June 1. The charge will be \$2.25 a night. Members of Seniors' families may also be accommodated in Riverside any time during the week beginning Friday, June 1, and ending with Graduation.

Those who wish to take advantage of these facilities may do so by applying for a reservation from the Manager of Riverside Dormitories. Chaperons will be provided during Senior Week.

French Art Work Is To Be Featured In Library Exhibit

By STEPHEN KLIMENT

Passers-by on their way to Dewey, and English and History libraries have most probably remarked the uncrating and stacking of large paintings, models, and various other objects inside in the Exhibition Gallery, and wondered what in the way of exhibitions was next to gratify their artistic aspirations.

The truth is that they will have a unique opportunity of seeing, in the original works of several well-known French artists when the ART SACRE exhibition opens next Monday. Antoine Bourdelle, Chagall, Rouault, and Fernand Leger are familiar names, and oils, water colors, and sculptures by these artists are part of the collection of exhibits.

2,000th Anniversary

The exhibition is sponsored by three organizations, in conjunction with the festivities marking the 2000th anniversary of the founding of Paris; these are the French Direction Generale des Relations Culturelles, the Cultural Division of the French Embassy, and the Liturgical Arts Society. It was initiated by the Arts Gallery of Yale University under the direction of its Assistant Director Lamont Moore and was sent over from France in 16 large crates. It has already been shown at Yale; it will stay at the Institute till June 11th, and will then leave the Boston area for a country-wide tour lasting nearly a year, reaching the Cloisters, New York, in April, 1952.

Large Variety

The collection is religious in character and contemporary in origin, and comprises creations of all the static visual arts. Architects will be interested to see plans, photographs and models of churches by Pierre Vago and the Perret brothers. There

Oarsmen Are "Dark Horse" In Eastern Sprints

On May 19, eight Cardinal and Grey oars flashed in the afternoon sun, as they stood poised above the Annapolis, Md., waters. Six minutes and 30 seconds later the Beaver crew that hadn't won a race that season seeded third spurted across the finish line — EASTERN SPRINT CHAMPIONS.

Tomorrow eleven shells will vie for this year's title. M.I.T., having won but one race this season, has not been placed among the first six. TWO DAYS AGO THE VARSITY HEAVIES ROWED THE 2000 METER COURSE IN 6:10, 5 SECONDS UNDER LAST YEAR'S BEST TIME — 15 SECONDS UNDER THEIR WINNING TIME.

Why this great improvement? This year's crew hasn't shown as well to date as last year's varsity, regardless of their one win.

The story behind this would make Frank Merriwell blink twice. In a

startling coaching move three weeks ago, Coach McMillin replaced varsity strokeman, Al Fonda, veteran of last year's champs, with sophomore Chuck Buntchuh, Jay Vee stroke. In his freshman year Chuck had squeezed himself into the third boat. This sudden change evoked screams from all of Technology who followed the doings down at the boat house, but twenty odd days later, with the boat's time cut thirty-four seconds, these cries have turned to shouts of future triumphs.

Tomorrow three Ivy league teams have amassed the top three seedings in the heavy weight race—Yale, Princeton and Harvard in that order.

The other boats are those of Navy, Cornell, Syracuse, Columbia, Boston U., Rutgers, Dartmouth and Penn.

The J. V. boat has been picking

Crider, Schlesinger Debate On Political Action And Policy

Photo by Herzfeld

Mr. John Crider

By HUGH GALLAGHER

"If I were an 18-year-old I would be insulted at Congress holding a protective umbrella over my head. I would be insulted at the implication that I didn't want to serve my country," said John Crider, speaking at the L.S.C. May 14 lecture on "Who Is Going to Pay for This War?" This was discussed by Arthur M. Schlesinger, Jr., professor of history at Harvard University, and author of the Pulitzer Prize winner "The Age of Jackson," and John Crider, editor of the Boston Herald.

Equality of Sacrifice Needed

Mr. Crider, a professed Republican, spoke first. The important point to remember is that the burden of sacrifice must be carried equitably, he said. He spoke in favor of the Bernard Baruch plan

Photo by Herzfeld

Professor Arthur M. Schlesinger, Jr.

(Continued on Page 2)

up, too, with the addition of Fonda. The change has given both boats new life—and considerably better clockings. The varsity boat is:

Bow, Don Underwood; 2, Dick Lindstrom; 3, Hank Monkman; 4, Paul Smith; 5, Dick Semple; 6, Don Christensen; 7, Jack Casson; stroke, Charles Buntchuh; coxswain, Bob Adams.

Lights to Row Here

The Charles River will be the scene of the lightweight events of the E.A.R.C. There will be seven contenders: Tech, Harvard, Princeton, Yale, Cornell, Dartmouth, and Columbia. The proceedings will get under way for the Henely 15/16 mi. distance at 2:40 with the Freshman match. At 3:20 the J.V. will take over and at 4:00 the light varsities will battle it out.

The Techmen, after the two weeks of intensive training that Jim McMillin has given them, have also done some heavy improving. So things look pretty good all around.

Inst. Comm. Approves Undergraduate Activities' Increase In 51-52 Budget

Last Tuesday the Undergraduate Budget Board approved and the Institute Committee later ratified an increase in the budget for the Undergraduate Association from \$49,600, appropriated last year, to \$51,000 for the year, 1951-52. Even with this increase several requests needed to be cut considerably. Over and above this quoted appropriation made last year \$500 was received from President Killian for the Activities Ball and \$184 was received for transportation expenses for the Student Union delegates.

The budget approved for next year includes \$46,142, an increase of \$4,272 over last year's grant; for Activities, \$2,993, a decrease of \$482 from last year; to the Institute Committee, \$235, a decrease of \$215 from last year; to the Classes '52 through '55, and special appropriations of \$1,730. In the special appropriations are \$500 for the Activities Ball and \$200 reserve for the Student Union Conference.

Of the grant to Activities, \$40,873 is to the Athletic Association as compared to \$39,720 granted last year. This includes only participation expense in athletics, and does not include coaches' salaries, new athletic equipment, or upkeep on buildings for athletics. Budgets for other undergraduate activities are all under \$1,000 except that for Technique which is for \$2,650. This appropriation, which is an increase of 7% over last year's Technique budget, is for space purchased by the Institute Committee for the undergraduate activities and is not a direct grant to Technique for its expenses.

Those activities which will re-

LECTURE SERIES COMM.

"Shall we preserve our liberties at home in defending them abroad?" is the subject of a lecture to be given by Charles W. Wyzanski, Jr., U. S. District Judge of Massachusetts. The talk is sponsored by Lecture Series Committee and the School of Humanities, and will take place on Monday, May 21, at 5:00 p.m. in Room 10-250.

Common Rooms Provide For Formal Or Informal Meetings

By ED EIGEL

In order to provide the students with more than just a formal education, many of the departments here at the Institute have set aside and maintain a special room for the use of the various members of the department. The manner in which these rooms are used ranges from very informal to formal, and each room is a little different from the others.

Informal and Successful

On the very informal side is the Mathematics Common Room, 2-251. This room is open all day to the faculty, graduates, and seniors of the Mathematics Department. Its primary purpose is to provide a place where the students and faculty can meet on an informal basis. It is soundproof and provided with a blackboard, which is used extensively.

Although it is sometimes used for teas in honor of visitors, the staff tries to keep the mathematics room open as much of the time as possible. It was designed by the firm of Anderson and Beckwith for the purposes desired by the department, and has been in use three years. It is one of the most used and most informal of the departmental rooms.

Used For Small Classes

While not open all day, the Jackson Room is much like the Mathe-

tained by the Department of Chemistry. This room was the result of a fund set up in 1927 by Mrs. Moore in honor of her husband, who was a Professor of Chemistry here at the Institute until 1925. Its purpose was to make the study of chemistry more interesting, and to make the surroundings more attractive. When Building 6 was erected, Room 6-321 was set aside for this purpose.

Not Open All Day

Originally used exclusively by the Departments of Chemistry and Physics for seminars and staff meetings, it is still maintained by the Chemistry Department, but is used by almost all of the other departments, the Corporation, and the professional societies for meetings. It is not used by the students and faculty in the informal manner of the Mathematics Common Room.

Most of the rooms maintained by the various departments would be classified somewhere between the Mathematics Room and the more formal Moore Room. A good example is the Electrical Engineering Department's Jackson Room, 10-280, named for Duglad Caleb Jackson, who is one of the past heads of the department.

Used For Small Classes

While not open all day, the Jackson Room is much like the Mathe-

GOOD PUBLIC RELATIONS

The important part that public relations plays in the presentation and acceptance of any policy was demonstrated by the discussion that has taken place during the last few weeks on the administration's Proposal on Campus Living. Those who drafted the Proposal should have realized that it would be greeted with apprehension by the student body. The choice comments beside the copy posted at Baker House serve to point this out. For example, it was sheer folly on the administration's part to include in one document the idea of balancing its budget by reducing telephone service, as well as a plan for requiring all freshmen to live on the campus. It has taken every effort on its part to convince the student that the idea of all freshmen living on campus was advocated by Dean Baker three years ago, and that it was not included as just another means of balancing the budget. These and other inconsistencies served to alienate the student against every phase of the Proposal, thereby making fair and considered judgment, on his part, virtually impossible.

There have been other cases where the administration has handled public relations poorly. By not posting a detailed report of why it was necessary to raise food prices in dining services not under contract feeding, the following has resulted. At one of the campus snack bars a student staff member behind the counter goes to great trouble to tell practically every student who stops to eat, that the new prices are too high, and that they could have been prevented by firing some of the higher salaried employees who are not serving useful functions in the Dining and Housing Service. Every person who leaves the snack bar is probably carrying away a false impression of the Service's position in this matter. We say probably because we are going to take the average student's view, one who does not have the time or opportunity to dig out the facts. Until that student staff member and all others affected by the price rise are told what the facts are, this situation will continue.

Likewise, the administration should present its reasons for requiring the dormitories to pay for themselves, and for considering them as a whole as far as finances are concerned, rather than taking each unit separately. The preparation of such report would be good public relations.

Another phase of public relations is concerned with external impressions. While the Technology News Service and the Public Relations Committee can do their part, every summer approximately 5,000 students act as ambassadors of either good or bad will, depending on the opinions of the Institute they have gained during the year.

Given the facts the student will be able to make sound, mature judgments, that must be respected even though they differ from those of the administration. A student without these facts may well be an unintentional ambassador of bad will. Time spent in studying the most effective ways of presenting to the student the facts and policies of the administration will not be wasted.

CONTRACT FEEDING FOR THE CLASS OF 1955

It seems that the present residents of East Campus could not conceive of Walker Memorial serving acceptable meals even under a contract system, therefore, they failed to sign up for a two-week contract feeding experiment. Until the administration makes every effort to obtain a really good head chef, even though it may mean firing the present one, and does everything in its power to improve the palatability of the food, next year's freshman campus residents should not be required to take contract feeding.

AFTER HOURS

By GEORGE BARTOLOMEI
 DANCES

FRIDAY, MAY 18

Hotel Commander

The Carlton Club is holding the only dance this weekend, with music by Harold Donehey as usual. The rapid approach of finals and graduation will keep all the colleges busy, so this will probably be the last of the season for Techmen. A recent survey proved that there were still some swell gals attending these dances; stop in and see for yourself, same time, same place.

SATURDAY, MAY 19

Memorial Hall

The Harvard Folk Dance and Song Society is playing host for the International Folk Dance Festival, which should be quite a gala event. The featured events of the evening will be Bavarian and Norwegian Dance displayed by groups from Philadelphia and New York, respectively. The colorful demonstrations will last from 7:30 to 12 and members of the audience will have an opportunity to participate also.

Outings

Now that the school year is drawing to a close, many clubs will be holding some sort of an outing, as a last fling. For any group of 30 or more, we have two suggestions:

Oceanview Ballroom—Located at Revere Beach, this pavilion has the essentials necessary for a rip-roaring party or dance. A snack bar, cocktail lounge, fountain service, and a T.V. room supplement the huge dance floor. Enjoy yourself and the sea breezes at the same time. Call RE 8-3222 for arrangements.

The Lufraen—This noble ship and her captain are available for the sea-faring individuals. All bait, ice and tackle is provided free for any deep sea fishing excursions. The ship will also take land-lubbers for an island picnic. For reservations contact Captain W. H. Bradbury, GE 6-9128.

THEATER-STAGE

Brattle

"The Roaring Girl" In this final week, Jenny Lou Law will be replacing the now famous Nancy Walker as leading lady. Act now if you want seats, they're at a premium. Starting May 23, "Love's Labor's Lost" will be featured here. This play is one of the few Shakespearean dramas rarely produced on stage.

Pi Eta Theater

"A Doctor in Spite of Himself," a dramatic play by Molire will be presented by the Pi Eta Theatricals this Friday and Saturday evenings only. The curtain rises at 8:30 sharp.

Shubert

"Seventeen"—This musical version of Booth Tarkington's famous comedy will have its premiere on stage the 25th of May. The engagement is limited to only two weeks, so get your tickets now.

SPORTS

FRIDAY, MAY 18

Track—N.E. Intercollegiates (Springfield) (also the 19th). Tennis—Neita (through Mon. at Providence).

SATURDAY, MAY 19

Lacrosse—Williams—(home)
 Crew—Eastern Association Rowing Colleges
 Championships at Cambridge (Lights)
 Heavy at Princeton
 Baseball—Boston University (2 P.M.)

Crider, Schlesinger

(Continued from Page 1)

of "Freeze every thing and unfreeze when and if equity dictates." He complained that the president, while speaking of grave, quote, emergencies, unquote, and necessary sacrifices on the one hand, submits a budget to the Congress asking for increased social expenditures. "It sounds as though we are trying to have our cake and eat it too. The president sounds a 4-alarm fire and then calls for only enough apparatus to put out a brush fire," Crider said.

Presidential Folly

Mr. Crider stated that the reason the president has instituted very few controls is that he is afraid of breaking the alliance the Democratic Party has with the labor and farm community . . . this alliance, Mr. Crider said, was responsible for the victories of Roosevelt and Truman. "The Democrats," he said, "have found that the workingman is a political gold mine."

As to the draft, Mr. Crider feels that all men, including 18-year-olds, should be eligible for service. He does, however, favor the deferment of 60,000 men for colleges.

Strength in Organization Cited

Democrat Schlesinger said that we are in a very real emergency, without the quotes. This trouble, he feels, is not the result of recent events—Yalta or Potsdam—but that of the collective failure of western life to meet mass human needs. "It is not recent. It is based on deep historical tendencies," he said.

(Continued on Page 4)

French Art

(Continued from Page 1)

will be some stained glass, including two motifs—Christ in Majesty and Christ on the Cross—effected in a new technique by Jean Crotti.

Among the paintings are "Autumn Nocturne" and "Christ on the Cross" by Rouault, and water colors by Leger, Bourdelle and Chagall.

Etchings comprise a work by Rouault and one by a nun of the Convent of St. Louis, France. Apart from this, the collection includes sacred vessels and crucifixes, pieces of enamel and metal work, devotional garments and some large

tapestries, which will be hung in the lobby of Building 7.

Lighting in Gallery

The Exhibition Gallery in Hayden Library may undergo a change if plans to diminish the amount of light entering through the west window are put into effect. As the situation stands at present, the window faces the full glare of the low western sun in the afternoon; it is a cause of inconvenience to visitors and a source of danger to those exhibits which for lack of space have to be placed near it. The alteration would be fairly costly and execution still has to receive official sanction.

Survey Of Colleges Shows Strict Open House Rules

At a recent conference in St. Louis, Assistant Dean T. L. Hilton questioned the deans of several colleges across the country on the subject of Open House Rules. Of the ten colleges he collected information on, only one, Cal. Tech, had more liberal rules than M.I.T., and there a change was likely.

At Oberlin, Alabama, Northwestern, Texas Tech, and Antioch girls can be entertained in lounges only, and in some cases only at certain hours or special occasions. At the University of Illinois girls may not enter the dorms without chaperons.

After Games Only

Rensselaer has no lounges and allows entertainment in rooms only after football games. No liquor is allowed in the dorms there, at Illinois, and probably at some of the others.

Dartmouth has open house every night until 7 p.m. and weekends until 11 p.m. The student government takes away the privileges of

Schwarz Will Receive Harold DeWitt Smith Memorial Medal

Professor Edward R. Schwarz, head of Textile Technology at the Institute, has received the Harold DeWitt Smith Memorial Medal, according to an announcement by the American Society for Testing Materials, Philadelphia. The presentation will be made in New York at the October meeting of ASTM Committee on Textile Materials.

This medal is a testimonial to the memory of the late Harold DeWitt Smith, an outstanding textile scientist, and is awarded for outstanding achievement in the field of textile fiber science and utilization, which includes the development and promotion of knowledge of textile fibers and structures and/or methods for the evaluation of their properties.

Rooms Assigned Ahead Of Time For Draft Test

The Selective Service College Qualification Test will be given on Saturday, May 26th, to 2000 applicants who have received tickets of admission for that date from the Educational Test Service, Princeton, New Jersey. M.I.T. is planning to use 30 examination rooms on that day for its own students and for students from other colleges in the vicinity who may be assigned here.

Students now enrolled at M.I.T. must present their tickets of admission for the examination of May 26, at the Information Office, 7-111, on or after Friday, May 18th, and before Friday, May 25th, and receive a room assignment in advance. Such a procedure will eliminate the inconvenience of standing in line and will facilitate fingerprinting on the day of the examination.

On May 26, those who take the examination must report to the assigned Examination Room at 8:15 a.m. and must at that time present: (1) Room assignment card, (2) Ticket of admission bearing assignment No. S470, 5/26/51, (3) Selective Service official document showing Selective Service number and exact designation, and address of the Selective Service Local Board having jurisdiction.

The Bulletin runs as follows:

1. Sections 1622.10 and 1622.10a of the Selective Service Regulations prescribe the new criteria which local boards consider in determining the eligibility of students for classification in Class II-A(S).
2. In order to afford students, who may be considered for occupational deferment under the new criteria, the opportunity to furnish their local boards with the necessary evidence of their scholastic standing or their test scores in the college qualification test, the issuance of an order to report for induction, or the induction, of any such student is hereby postponed pending receipt of such information but in no case later than August 20, 1951.
3. Upon receipt of the necessary evidence of scholastic standing or the test score attained in the college qualification test indicating satisfaction of the criteria set forth in section 1622.10a of the Selective Service Regulations, local boards shall, under the provisions of section 1625.3 of the Selective Service Regulations, reopen and consider anew the classification of any such student registrant.
4. Under the provisions of Paragraph 8, Operations Bulletin No. 23, issued February 9, 1951, the induction of all high school and college students has been postponed for an additional period of 30 days beyond the termination of the statutory postponement at the end of the current academic year. This additional 30 day postponement was given for the purpose of permitting such high school and college students to enlist in the branch of service of their choice. Many college students are being graduated at the end of the current academic year with scientific or other training skills which are reported to the Selective Service System as being in short supply and vitally needed in our national defense program. Upon receipt of information by the local board that a college graduate has obtained during this 30-day postponement period such employment in a critical occupation in essential industry which the employer has not otherwise been able to fill, the local board is hereby requested, under the provisions of section 1625.3 of the Selective Service Regulations, to reopen and consider his classification anew.

The house was recently added to the M.I.T. campus through the bequest of Mrs. Moore, who lived there for many years. The house is large and has admirable facilities for all kinds of entertainment, including a large Banquet Room.

The addition of the Dean's House to the West Campus is an important contribution to the long range plan to make the M.I.T. campus a more close-knit community. It is hoped that the presence of Dean Bowditch on campus will help to make student life here more interesting and more valuable.

Common Rooms

(Continued from Page 1)

matics Room on a slightly more formal basis. It is used for small classes and discussion groups as well as professional societies and luncheon meetings. It was built by the Institute from two offices, to be used as a relaxation and social room by the department.

All of the rooms mentioned are equipped for teas and similar functions, and the Moore and Jackson Rooms are able to accommodate luncheon meetings. These rooms and similar ones maintained by other departments not only provide places for meetings and discussion, but also provide a chance for students to become better acquainted with the faculty.

graduates.

In addition to the granting of both bachelor's and higher degrees, the graduation exercises will include the award of commissions to all graduating members of M.I.T.'s R.O.T.C. units, including army and air force officers. Graduates receiving commissions will wear appropriate military uniforms instead of academic regalia.

Other commencement events include a reception by Dr. and Mrs. Killian to graduates and their

Proposals Made To Counteract A Continued Dormitory Deficit

The Dormitory Committee has made proposals to meet the deficit in the dormitory budget. The most important of these is the setting up of a section of Riverside as an economy dormitory.

There would be no porter service in the rooms, but porters would continue to clean the halls and bathrooms in the proposed setup. The House Comm. would make periodic inspections to see that rooms are kept clean, and all violators would be expelled from the dormitories.

Desk service would be maintained with reductions in personnel and

Favorites To Win
In Intercollegiates

A rare sight on the M.I.T. campus is a National Intercollegiate Championship. Commencing June 19, and running until June 22, the New England Intercollegiate Sailing Association will join the M.I.T. Nautical Association and M.I.T. in sponsoring the Inter-Collegiate Yacht Racing Association of North America's 15th Annual National Dinghy championship for the Morss Memorial Trophy.

Tough Competition

Eight colleges representing the four U.S. districts and Eastern Canada will vie for National sailing honors. Strong teams from the University of California and Stamford University will represent the Pacific Coast while M.I.T. and Harvard will carry the New England colors, having won their rights at Coast Guard this past weekend. Representatives from the Middle Atlantic and Midwest districts have not been selected as yet, but Navy appears to have the cards stacked in the Atlantic area while Michigan and Ohio State seem like safe bets in the Midwest.

T.V. and Radio Coverage

A total of thirty-two races will be held in three days on a patrolled and traffic-free Charles. Ample space will be provided for spectators; but for those unable to attend there will be complete radio and television coverage, with write-ups in "Life" and other magazines, and all the major newspapers.

A Full Schedule

All contestants and officials will be housed in the dormitories and ample entertainment will be provided for all concerned. There seems to be a strong sentiment in the New England Association to try to outdo the show put on at Newport Harbor, California, for last year's Nationals. With good student and civic backing, we at M.I.T. can do this and considerably more.

The aid of any individuals or organizations able to help with the entertainment, reception, housing, publicity, or any other phase of this event would be greatly appreciated. Will anyone interested please contact Howie Fawcett at Baker House as soon as possible.

M.I.T. Favored to Win

If you plan to be in or around Boston on any of these dates, be sure to give your sailing team, which is favored to win, the support it needs to win its first Morss Bowl victory in four years.

Tennis Team Loses

The Engineer tennis team went down to defeat against the Crimson by a score of 7-2. The individual scores were as follows:

Singles

TECH — HARVARD
Monsalvage 6-3, 9-7 vs. Bramhall
Mar vs. French 6-3, 6-1
Haegler 6-3, 6-3 vs. Watts
Beckett vs. Robb 6-4, 7-5
Bachelder vs. Tobias 6-1, 6-1
Matthews vs. Murphy 6-1, 6-0

Doubles

Monsalvage, Haegler vs. Bramhall, Goodman 4-6, 6-2, 6-0
Mar, Bachelder vs. French, Watts 6-3, 6-0
Beckett, Matthews vs. Nawn, Johnson, 4-6, 6-0, 6-0

Crider, Schlesinger

(Continued from Page 2)

In this emergency, Schlesinger seemed afraid that "those who are organized will sacrifice less than those who are not." If organized business takes advantage of this, it will be risking more government control. In war, the farmers may be strengthened, labor may be strengthened but, he said, it is certain that the government will be strengthened.

Unity In Crisis Called For

We are in a state of semi-mobilization and will be, for an indefinite period. "We must have unity; busi-

Captain Gene Lubarsky is shown above. Besides being a good hitter his batting has helped immensely this season.

Trackmen Travel
To Intercollegiates

Captain Ed Olney, defending half-mile champion, will lead a squad of eleven entries in the New England I.G. 3 A. Track Championships this weekend. The meet, which is being held at Springfield this year, opens at 2:00 p.m. this afternoon, with trial heats being run off today and finals tomorrow afternoon.

Olney, who ran a 1:55.9 half in winning last year and also won the title in his sophomore year, will go into the half as a strong favorite to bring back top laurels for the third straight year. Chuck Vickers, who has been running right behind Olney all season, has a strong chance to add to the Tech total in the same race.

Nicholson Threat in 2 Mile

Bill Nicholson, standout distance man for Oscar Hedlund's runners, is another likely pointgetter in his first chance to concentrate on the two-mile all season. Nicholson, who has been running both the mile and

the two-mile all year, will be facing a powerful field, including Bruno Giordano, New England Cross-Country champion from Connecticut, who finished fourth in the Penn Relays two-mile with a time of 9:31.5, only 3 seconds off the New England record.

As a team the Beavers are no longer likely to be in the title fight, which has Boston University as a favorite. George Grenier is the strongest of the remaining entries, although his event is not yet determined. Other

(Continued on Page 5)

ness the Republicans and the farm bloc must give up just as much as labor and the liberals have."

In this state of continued pressures, national resources developments are important in the long run, said Schlesinger. And so too are health and education programs, he said, that is why the president's budget includes the social expenditures that Crider objected to.

"We are living in an age of transi-

tion. We should not be discouraged. For it is worse to know exactly what you will be doing in ten years' time than it is to be unsure of the future."

Mr. Crider, in his rebuttal, said that he resented the implication that the Republican Party was not giving its all. "The only thing we have left is our desire to get back in the White House, and we can't give that up."

Championship Sharpshooters Have Three All-Americans; Tanner Elected New Captain Tech Sweeps Series Of Matches

On Friday evening, May 11th, the M.I.T. Rifle Team held its annual banquet.

The first item of business to be transacted at the banquet was the election of a captain for the 1951-52 season. Allan Tanner, a Junior in Course XII and this past season's manager, was elected.

Next, the mass of awards that had accumulated over the season were distributed. Mr. Geiger, Director of Athletics, presented M.I.T. numerical awards and letters to the men who had earned them. Col. Charles F. Baish then presented the awards to the high scorers in the New England College Rifle League. The Tech team not only won the League Championship on March 17, but also took all three individual awards, with first place going to Mel Bowers, second place to Allan Tanner, and third place to Herb Voelcker. Col. Baish also awarded first place medals to the four-man team of Voelcker, Bowers, Tanner and MacDonald which won the Citizens' Hearst Trophy.

Tech Places Three On All-American

Col. Harold R. Jackson, Chief of Staff of the New England Subarea and former PMS&T at M.I.T., then presented Herb Voelcker with a plaque in commemoration of his high individual score in the District of Columbia Championship Match. To climax the award presentation, Col. Jackson announced that the National Rifle Association had selected Herb Voelcker, Mel Bowers, and Allan Tanner as members of the ten-man All-American Rifle Team. In recognition of this honor, the men were each awarded a coveted Golden Bullet by the NRA.

It is notable that Tech was the only school to place more than one man on this elite shooting aggregation; the remaining schools supplying All-American shooters were the Military Academy, the Naval Academy, UCLA, U. of Washington, George Washington, Norwich, and Tennessee. Unfortunately, the silver cup awarded annually to the Inter-collegiate Championship Team had not arrived from Washington in time to be presented.

After all the awards had been distributed, the team presented Coach Jim Brahe with a leather traveling bag as a token of gratitude for his fine coaching over the year. In addition, he was made a member of the nefarious "Order of the Derby" by Gene McCoy, who presented him with a fine black derby to be worn at all rifle team functions.

Voelcker Presents Trophy

To climax the evening, Retiring Captain Herb Voelcker presented to the school an inspirational trophy established by the five-man team which won the Intercollegiate Championship. The trophy is entitled "1437 Trophy" to commemorate the record which the Tech team established, and will be presented annually to the outstanding contributor to the M.I.T. Rifle Team. In this, its initial year, the award was presented to Jim Brahe in recognition of his outstanding work as coach, leader, and "best of guys."

The rifle banquet climaxed a season which has been the most successful ever enjoyed by any rifle team in the country. The Tech team not only captured the national championship and set a new record in doing it, but also placed three men on the All-American team. In addition, a freshman squad was built which is by far the finest Tech has ever had, and which should be able to fill the vacancies left by graduation with the same or better quality of shooters. In passing, it is the hope of everyone on the team that the 1952 Olympic Rifle Team will be at least partially a Tech rifle team.

CHI EPSILON ELECTIONS

Chi Epsilon, honorary Civil Engineering Society, elected officers for the Fall term at a meeting last Tuesday, May 8. Those elected were: Russell Olive '52, president; Albert Olson '52, vice president; Theodore Uhler '52, secretary; C. R. Roy '52, treasurer; and Stanley Sydney '52, associate editor of the *Transit*. The Society is planning an outing for May 26.

Track

(Continued from Page 4)

entries include Ernest Huber in the javelin, Bob O'Donnell, Carl Swanson in the mile, George Thompson in the pole vault and high jump, Jerry Tiemann in the two-mile, George Kerns in the broad jump, and Ken Childs, who figures as a dark horse in the 220-yard dash.

Fresh Enter Relay Team

The Beavers are also entering a team, made up of Chris Geisler, Sam Losh, Sid Klein, Ian Williams and John Farquhar in the Freshman medley relay, which is an annual feature of the meet. This year the Fresh will rate a strong chance of winning.

This will be the closing event of the track season which has turned up but one win all year. With only four men, Huber, Thompson, Olney and Kerns, of this year's eleven New England entries are not scheduled to return. With three record holders and one varsity record holder on the Freshman squad next year's team should be a fairly powerful outfit.

Student Aid Comm. Formed To Integrate Financial Assistance

The new Student Aid Committee was created to "integrate all the forms of financial assistance," and to "provide a package system of help," according to Dean Thomas P. Flit.

The new committee will work side by side with the Scholarship Committee, the Loan Board, and the Student Employment Office which is now headed by Mr. William H. Carlisle, Jr.

Although the policies of the new organism have not been fully formulated yet, its purpose is quite clearly defined—to work toward creating more and more opportunities to give aid to deserving students at the Institute.

"Equilibrium Balance"

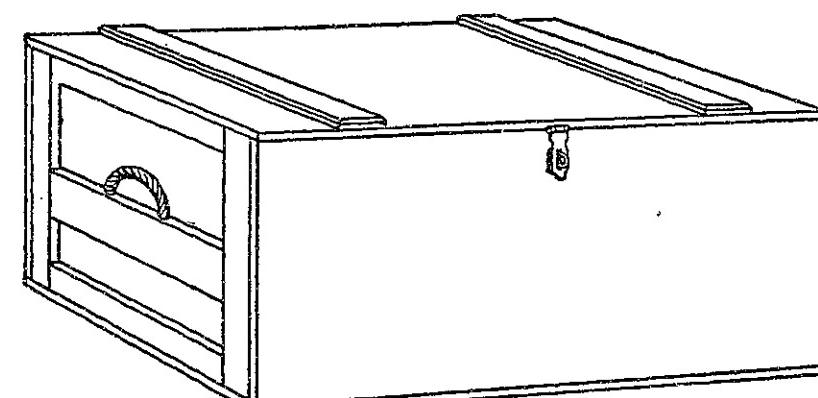

As economic conditions change, the relative importance of each of the forms of assistance also varies. The Committee will treat each case individually and provide the proper proportion of loans, scholarships and employment for each man. At a professional school like the Institute no man should allow part-time employment to interfere in his obtaining the full value of his education. The newly established unit will help find an "equilibrium balance" in every case. It must treat the problem with an eye on the end-point, the turning out of a fine engineer or scientist.

The Employment Office is constantly seeking new opportunities for the students and will be a vital part of the entire system.

"PATRONAGE REFUND TO MEMBERS"

**EVER HOLD HANDS
LIKE THESE?**

They're not soft and warm, these hands. They're hard and cold—and mechanical. They work at the Oak Ridge atomic energy plant, preparing radioactive isotopes for shipment to Bell Telephone Laboratories and to other research centers.

These isotopes—which serve as tracers—are used by Bell scientists to study the materials that go into the telephone system. Our research men, working with Geiger counters, are able to detect wear in relay contacts, impurities in metals, the penetration of preservatives in wood.

This new research tool helps us to learn more in less time, helps us to make telephone equipment even more rugged and dependable. That's especially important right now when the Nation relies on the telephone to help get things done.

BELL TELEPHONE SYSTEM

NOTICES

Baker Memorial Prints

A selection of 36 Everett Moore Baker Memorial Prints is available for the summer term. Sign-ups must be made before May 22, at the T.C.A. office. There is a limit of one to a customer, and the charge is one dollar.

Tech Show Records

This afternoon at 3:00 p.m. and again at 4:00 p.m., the music library will play the songs from the 1951 Tech Show "Call Me Mummy." Everyone interested in hearing the music is invited to attend. Records of the music are currently available in Building 10 from 11:00 a.m. to 1:00 p.m. daily. They may also be obtained by contacting Larry Isaacson at LO 6-9360. All who have ordered records are requested to pick them up at the booth in Building 10.

Technique

Technique options are to be redeemed in Building 10 from 9:00 a.m. until 5:00 p.m. today, Monday, Tuesday and Wednesday. In order to avoid confusion, options should be redeemed during this period.

I.D.C.

The Informal Dance Committee of the Walker Memorial Student Staff will hold three dances in Morss Hall during the coming summer. They will be held on Saturday evenings, June 30, July 28, and August 25, at 8:30 p.m. Tickets will be on sale at the door, and will be \$1.00 per couple. All members of the M.I.T. family are invited to attend.

Stratton Winners
Named By Judges;
Herbert Wilf First

The results of the Annual Stratton Prize Speaking Contest have been announced by the judges. Herbert S. Wilf, XVIII '51, won first prize of \$100. His topic was "What Kind of Universe?"

Second Prize of \$50 went to Walter R. Stahl, VII '51, for his "Language of Bees." Ralph A. Vitti, XVII '52, took third place and \$20 with "Insulations in Fireproof Buildings." Fourth, fifth and sixth prizes went to Robert S. Gooch, I '51, "Soil Solidification"; Charles L. Miller, I '51, "The Engineering Method"; and Joseph J. Kohn, XVIII '54, "Mascheroni Construction."

The chairman of the Judging Committee was Professor Thomas H. D. Mahoney. The judges were Professors William C. Greene, C. Fayette Taylor, and Ascher L. Shapiro.

If, after reviewing their approved grants any activities desire internal revisions, they are requested to contact the Finance Committee before the close of the present school year. Internal changes must not alter the total budget for the activity.

Hydrodynamics Lab
Will Be Dedicated
At June Symposium

The newly-completed Hydrodynamics Laboratory and Ship Model Towing Tank at the Institute will be dedicated on Monday, June 4, at the opening session of a three-day symposium on the role of hydrodynamics in modern technology.

More than 300 engineers and scientists from university laboratories, from industry, and from government agencies are expected for the session which will commemorate the completion of the first new facilities made possible by M.I.T.'s recent \$20,000,000 development program.

Dr. James R. Killian, Jr., president, will formally accept the new laboratory on Monday morning during the dedication ceremony.

The symposium sessions will deal with the role of modern hydrodynamics—which concerns the motion and action of fluids—in industry, in public works, in naval architecture, and in the various phases of national defense. The technical papers, to be presented by outstanding leaders in these fields, will give a summary of the analytical, experimental, and practical solutions of engineering problems. In addition, members of the staff will review their own research activities in hydrodynamics and hydraulics engineering.

Among the speakers will be Major General Lewis A. Pick, chief of the Army Engineers; Captain H. E. Saunders, USN, special assistant to

the chief of the Navy Bureau of Ships; Karl E. Schoenherr, dean of the College of Engineering, Notre Dame University; Forrest Nagler, chief engineer, Allis Chalmers Manufacturing Company, and Wesley R. Nelson, assistant commissioner of the Bureau of Reclamation. The various sessions will be presided over by Mr. Beauchamp E. Smith, president of S. Morgan Smith Company; Boris A. Bakhmeteff, professor of civil engineering, Columbia University; Vice Admiral Edward L. Cochrane, head of the M.I.T. department of naval architecture and marine engineering on leave as administrator of the Maritime Administration; Rear Admiral Calvin M. Bolster, USN, of the Office of Naval Research, and Dr. Mina Rees, director of the mathematical sciences division in the Office of Naval Research.

Dr. Karl T. Compton, chairman of the M.I.T. Corporation, will speak on "Engineering Manpower Trends" at the symposium dinner on June 4, at which Thomas C. Desmond, New York State Senator, will be toastmaster.

It was decided, however, that a committee will be set up, composed of members of Q-Club, Agenda, and Sophomore Council, to apprehend offenders. These offenders will be taken before Soph Council and suitable punishment will be meted out.

Freshman Ties Style
For Fresh Next Year;
Sophs To Force Rule

After several weeks of indecision, it has been decided that next year's freshman will wear the same ties that their predecessors have worn for years. A motion has come up in the Freshman Council to have the rules changed to include beanies or something equally distinctive.

A vote was taken among the members of the Class of '54, but only 60% of the ballots were returned. Of these about 70% wanted a change, but did not indicate what kind. As a result, it was decided not to change this part of the rules.

It was decided, however, that a committee will be set up, composed of members of Q-Club, Agenda, and Sophomore Council, to apprehend offenders. These offenders will be taken before Soph Council and suitable punishment will be meted out.

Be Happy
Go Lucky!

UPPER
CLASSMEN
ONLY

An "Upper Classmen Only" sign—
It doesn't seem quite fair—
'Cause if you're smoking Lucky Strikes,
you fit in anywhere.

Donald C. Jolliffe
University of Denver

LUCKIES TASTE BETTER
THAN ANY OTHER CIGARETTE!

Fine tobacco—and only fine tobacco—can give you a better-tasting cigarette. And L.S./M.F.T.—Lucky Strike means fine tobacco. So, for the best-tasting cigarette you ever smoked, Be Happy—Go Lucky! How about startin' with a carton—today?

L.S./M.F.T.—Lucky Strike
Means Fine Tobacco

When marks are low and tempers blow,
And days are grey and mucky,
Cheer up, my friend, 'tis not the end—
Relax! Light up a Lucky!

John K. M. Hayes
Princeton University

It really seems an awful chore
To get my homework done.
But with a Lucky Strike in hand,
It almost seems like fun.

Janet E. Stuessy
Platteville State Teachers College
